Measuring Behavior 2005 Proceedings Book

If you fill in this form and fax it to +31-317-424496, you will receive the:

Proceedings of Measuring Behavior 2005, 5th International Conference on Methods and Techniques in Behavioral Research (Wageningen, The Netherlands, 30 August – 2 September 2005). Edited by L.P.J.J. Noldus, F. Grieco, L.W.S. Loijens and P.H. Zimmerman. Wageningen: Noldus Information Technology. 725 pp. ISBN 90-74821-71-5.

This book, published for the first time in conjunction with Measuring Behavior 2005, contains 230 papers presented at the conference, including those that reached the editors after the conference and did not make it to the conference CD. Because most journals allow little space for detailed descriptions and illustrations of methods, tools, and setups, the Measuring Behavior proceedings offer a unique collection of papers with a methodological and technical emphasis. All papers (2-4 pages each) focus on the details of methods and techniques, rather than a discussion of scientific hypotheses, data and results. This makes it a unique volume for your professional library. Complete with table of contents, author index and keyword index. The price is €75 and shipping costs are included!

Yes! I hereby order the Measuring Behavior 2005 Proceedings Book
